

Prep

Curriculum Connection

Term 3, 2025

What is your child learning?

English

Students will learn about poetry and create rhymes. They will continue to focus on reading and spelling simple words.

Maths

Students will continue to explore numbers to 20 and will explore length, capacity and mass.

Science

Students will learn about living things, their needs and how their environment can affect them.

HASS

Students will learn about the features of familiar places, why they're special and how we can care for them.

Health & PE

Students will learn about how different people experience different emotions and will learn a variety of soccer skills.

The Arts

Students will learn how to create visual art pieces and share their ideas about other art works.

This document has been produced to increase communication between school and home. Please note that with the implementation of version 9 of the Australian Curriculum, Prep learning will only be formally reported in English, Maths and HPE. Technologies experiencing will be integrated.
