

Year 2: Term 3 2025

Curriculum Connections

This document has been produced to increase communication
between school and home.

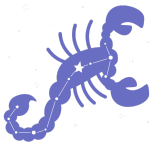

ENGLISH

Students will learn to read and understand stories exploring both literal and implied meanings shown through characters and events. They will practise reading fluently and use Queensland cursive for handwriting.

SCIENCE

Students will learn how to identify, describe and represent celestial objects. They will use data to explain how people use patterns to make predictions for everyday life.

HPE

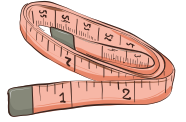

Students will explore health information and explain why it is important for making choices.

Students will learn the skills of handball to play by the rules in partner and team games.

MATHS

Students will learn to add and subtract numbers up to 20 and multiply by 2. They will use uniform informal units to measure and compare shapes and objects, focusing on length, mass, and capacity.

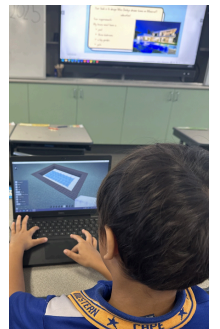

HASS

They will explore how technology has changed over time and how these changes affect people's lives.

TECHNOLOGIES

Students will learn how to generate design solutions for a given scenario using introductory coding skills and digital tools.

THE ARTS

Students will experiment with different materials and techniques to represent emotions in artwork.
