

English

Students are learning to read, comprehend and analyse imaginative literary texts. They will also learn to create their own imaginative text inspired by a familiar story.

Maths

Students are furthering their number understanding including fractions, decimals. They are learning about symmetry, transformations and grid references to describe movement and position. Yr 6s about tessellating patterns too. They will also learn to conduct statistical investigations to collect, represent, and interpret data.

HASS

Students are learning about Australia – past and present, three levels of government, global citizenship and rights.

Technologies

Students are learning about how information systems meet needs and represent different data types. They will also learn to design and create an interactive spreadsheet.

BARRA

CURRICULUM CONNECTIONS

TERM 1, 2026

The Arts

In Music, students are learning to choreograph and respond to music to tell a story.

Health & Physical Education

In Health, students are learning to explain how different factors and stereotypes influence identity.

In PE, students are learning the skills and body movements for basketball.

What is your child learning?

This document has been produced to increase communication between school and home.

Science

Students are learning to explain how natural events cause rapid changes to Earth's surface and identify actions that help reduce the impact of natural disasters.
