

Prep

Curriculum Connection

Term 4, 2025

What is your child learning?

English

Students will learn about informative texts. They will also read and comprehend simple sentences and focus on letter names.

Maths

Students will learn about different ways to show numbers in collections and will explore position and location.

Science

Students will investigate the movement of familiar objects, learn to predict and share observations and reflections.

HASS

Students will continue to learn about the features of familiar places and how we care for them.

Health & PE

Students will develop strategies for water safety to keep themselves and others safe. They will also explore movement direction through tag games.

The Arts

Students will learn how to create and perform their own drama pieces and share their thoughts and feelings about the drama pieces of others.

This document has been produced to increase communication between school and home. Please note that with the implementation of version 9 of the Australian Curriculum, Prep learning will only be formally reported in English, Maths and HPE. Experiencing Technologies will be integrated.
