

Year 1

Curriculum Connection

Term 4, 2025

What is your child learning?

English

Students will keep examining narratives including learning about creating their own - exploring detail, sentence types, punctuation and spelling.

Maths

Students will explore problem solving involving addition, subtraction, equal sharing and grouping as well as calculation strategies.

Science

Students will continue their investigations about push and pull and how force changes the motion and shape of objects.

HASS

Students will continue to explore personal and family events describing what has stayed the same and what has changed in daily life.

Health & PE

Students will learn water safety, swimming and survival skills to help keep themselves and other safe in and around water. Students will develop hand-eye coordination and use space effectively to practice ball skills.

The Arts

Students will devise, perform and respond to drama, focusing on the role, situation and ideas expressed.

Technologies

Students will explore coding, food technology and will use technology to create a purposeful design.

This document has been produced to increase communication between school and home.
