

WHAT IS YOUR CHILD LEARNING?

This document has been produced to increase communication between school and home.

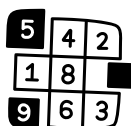

ENGLISH

Students will learn about persuasion and writing to express an opinion. They will develop skills for presenting and interacting as well.

MATHS

Students will learn how to work with numbers to at least 1000 including representing, ordering and partitioning.

They will learn about time on analog clocks and duration in days.

HASS

Students will continue to explore the significant features of place, how people are connected to them, and why they should be preserved.

SCIENCE

Students will learn how sound energy is produced and identify different sounds that are generated. They will examine fair testing to record and compare observations with others, and pose questions for further investigation.

TECHNOLOGIES

Students will continue to explore elements of Design and Digital Technologies. They will practise using the design process and coding through Scratch Junior and Minecraft Education.

THE ARTS

Students will choreograph, perform and respond to dance by exploring the stimulus of action stories.

HEALTH & PE

Students will learn fundamental skills of athletics and about the benefits of being physically active.

Students will learn about applying protective behaviours and help-seeking strategies to keep themselves and others safe.
